INTRODUCTION

1. Task at Hand

- Innovation to drive Revenue
- Continuous improvement of traveler experience
- Plan for changes in customer behavior
- Future-proofing of digital convenience and emerging technology

2. Business Goals

- Synergy between initiatives
- Aligning with business values
- Monetization of innovation
- Coordination of Services with Infrastructure

3. Emphasis of our Solutions

- Influencing customer purchasing behaviors
- Optimize capacity to drive revenue
- Promotion for underutilized lots and services

CONTROLLABLE FACTORS FOR REVENUE AND SERVICES

▶ **Customer Engagement**

▶ **Customer Behavior**

▶ **Customer Experience**

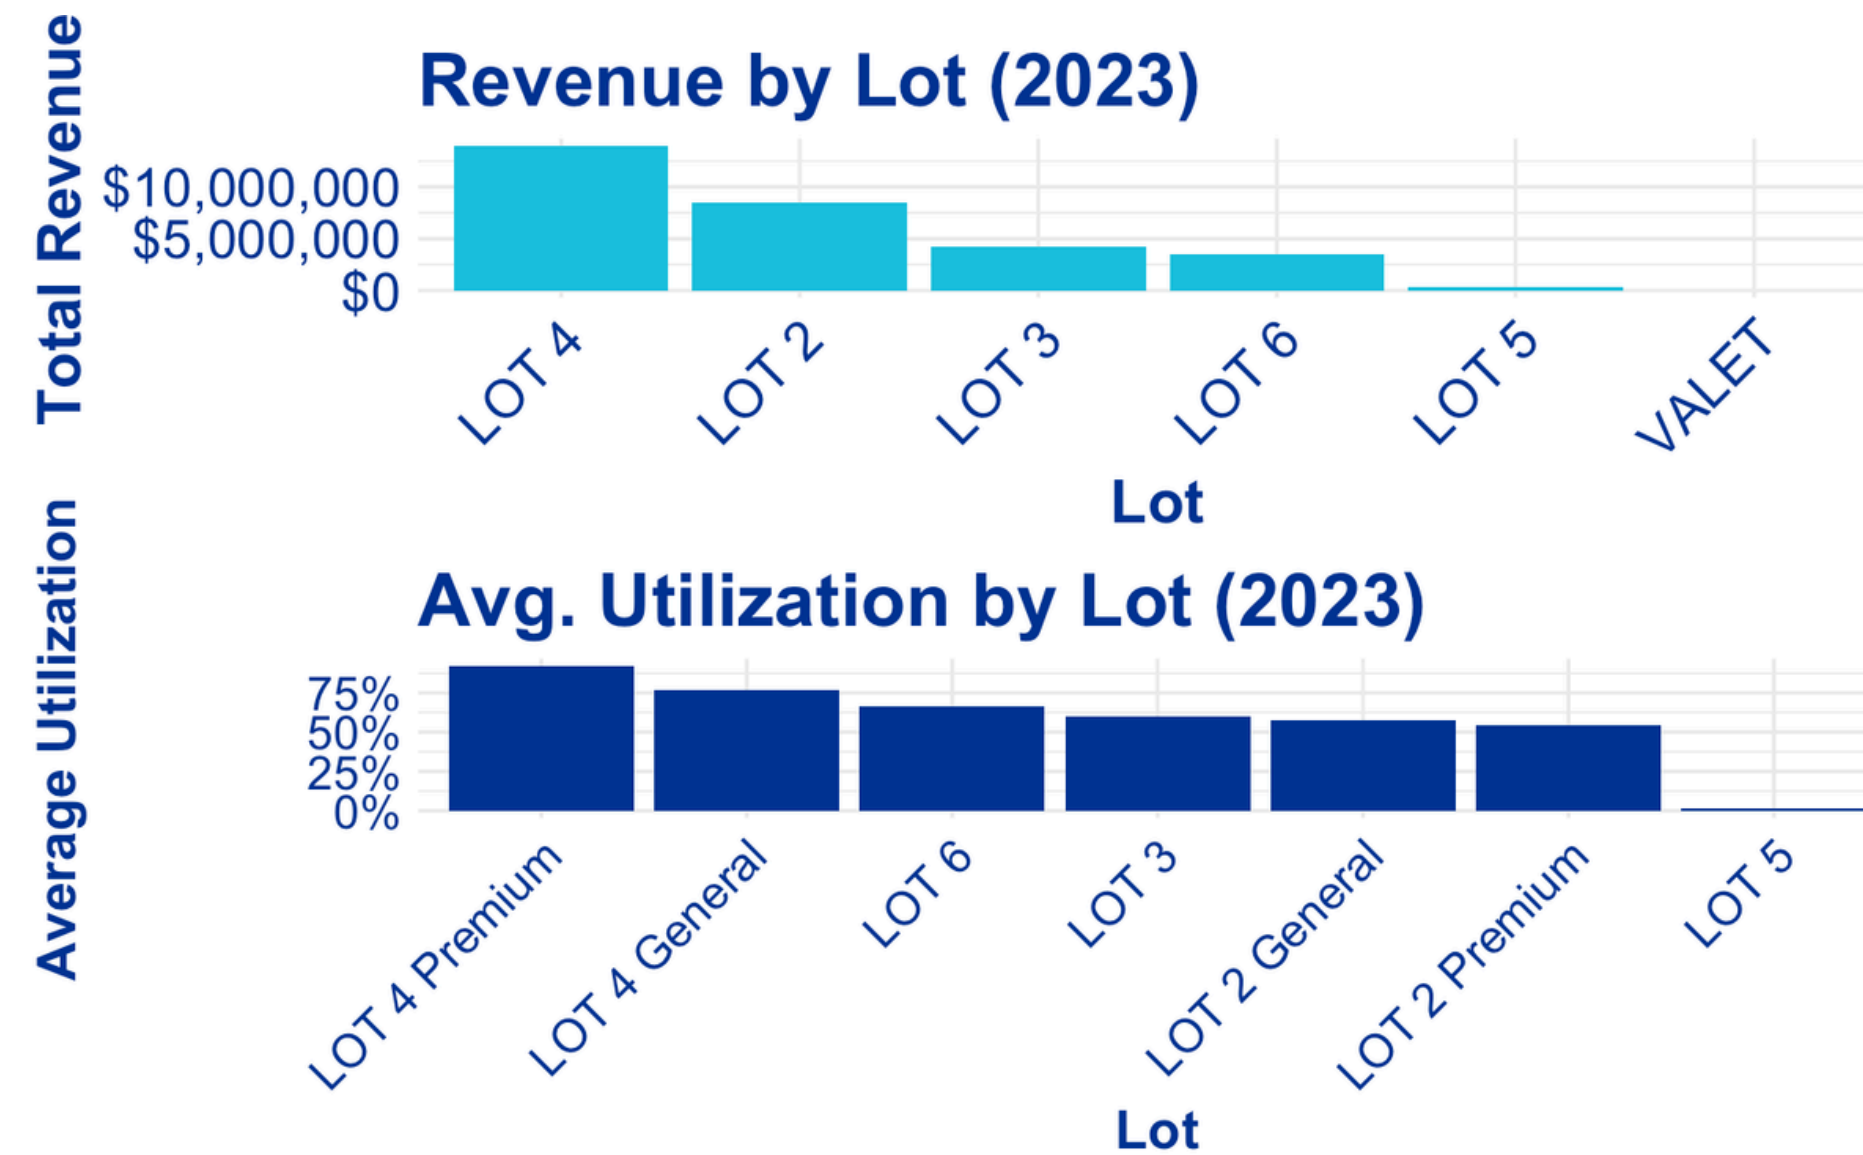

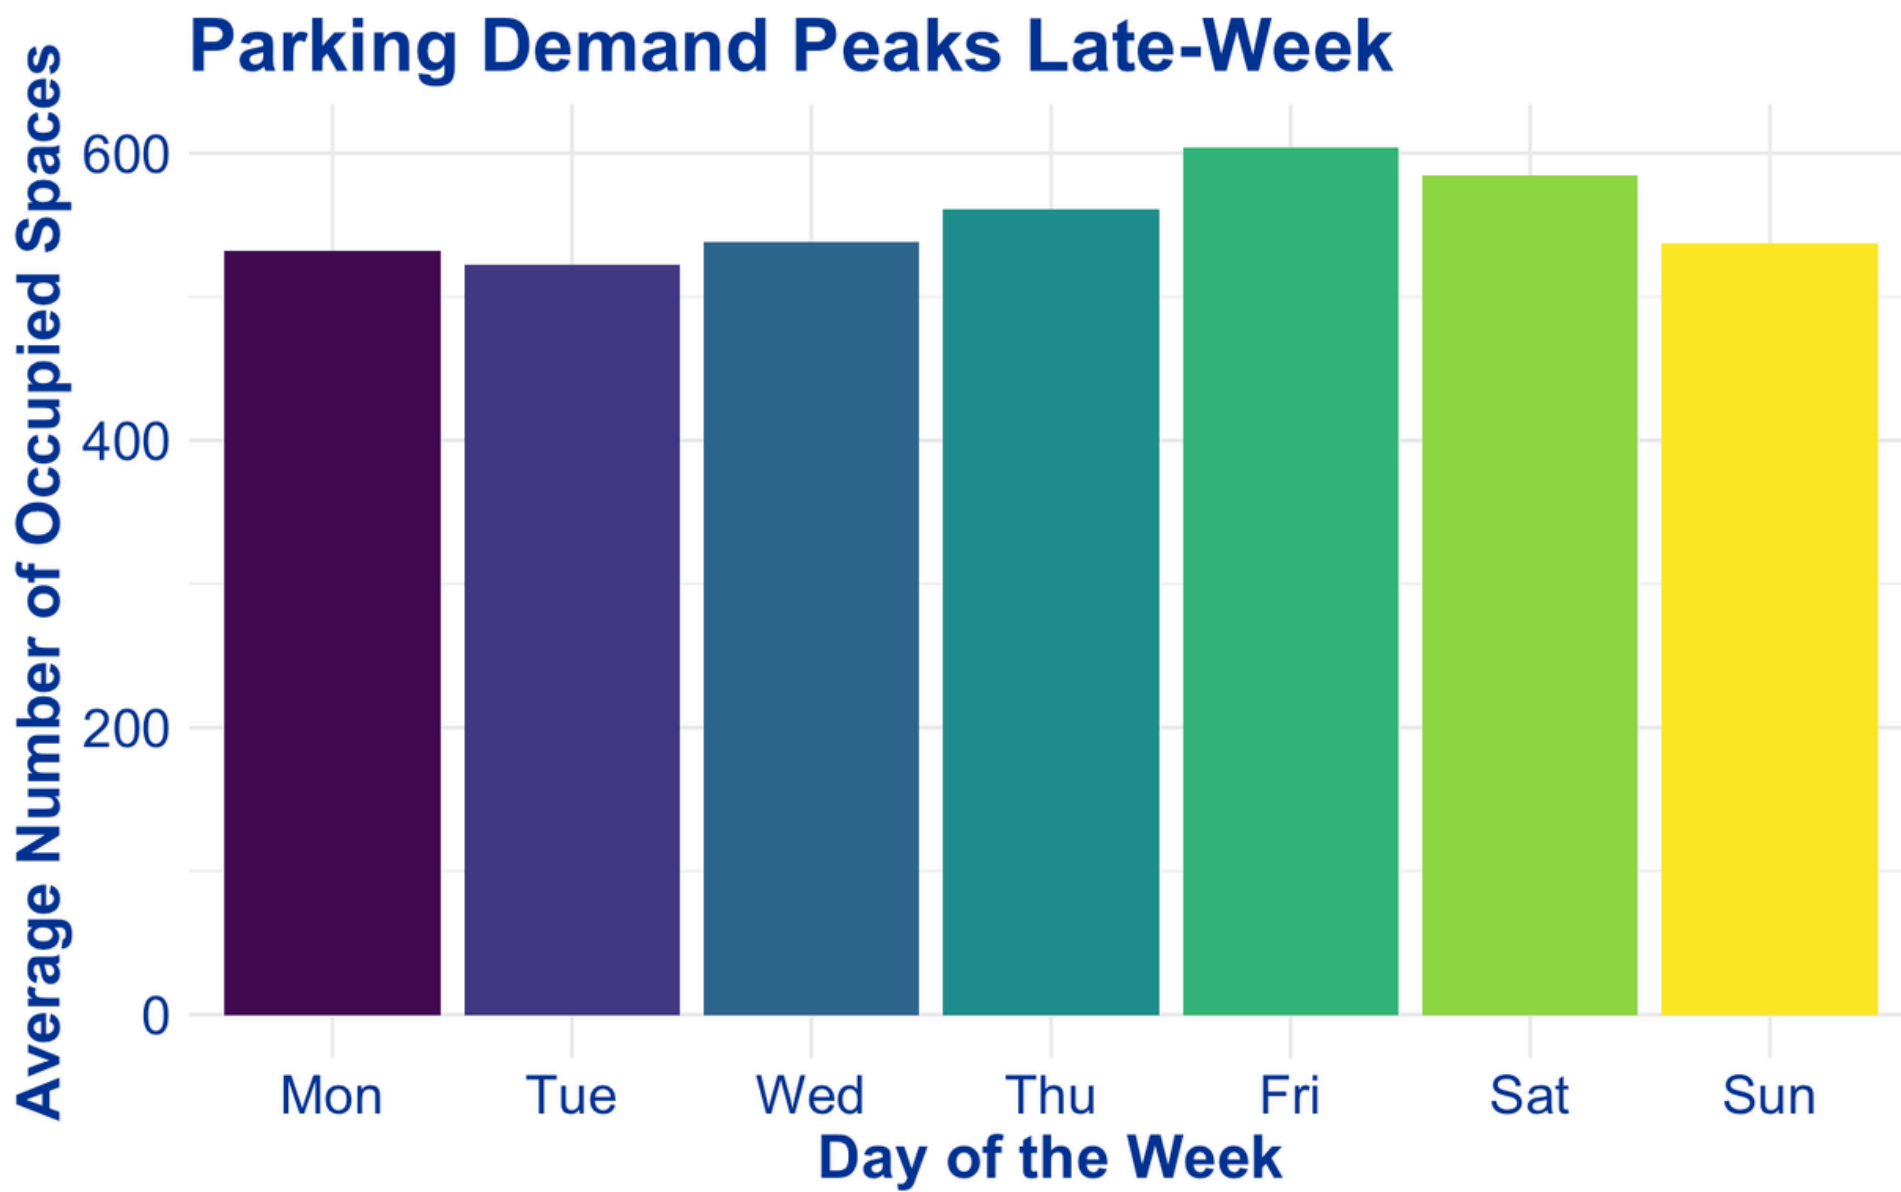

▶ **Sales Strategies**

▶ **New Technology**

▶ **Operations and Services**

SHORT TERM SOLUTIONS

1.Subscriptions Parking Model

Plan	Type	Parking Lots	Included Days	Price	Discount	Avg Yield Impact	Perk Pack
FLY 4	Self Park	Lot 5 and 6	4	\$99	10%	+8%	2 valet-upgrade vouchers/yr; price lock
FLY 8	Self Park	All General Lots	8	\$189	10%	+12%	6 valet-upgrade vouchers/yr; 1 month pause option
FLY 15	Self Park	Lot 2 and 4 (Premium)	15	\$319	15%	+17%	12 valet upgrade vouchers/yr; priority entry
FLY Valet 4	Valet	NA	4	\$189	10%	+13%	2 access lounge/yr and priority pickup
FLY Valet 8	Valet	NA	8	\$329	10%	18%	4 access lounge/yr; priority pickup

SHORT TERM SOLUTIONS

2. AI-based Dynamic Shuttle Optimization

- **GPS-linked shuttle tracking** and feed flight data
- **Integrate live shuttle arrival times** into the ONT website or digital signage at each lot stop, ensuring transparency for passengers.
- **Outcome:** cut waiting times
- **Quick ride** from distant lots like Lot 5 and Lot 6.
- **Partnership:** Google Maps and Maps for real-time tracking

★☆☆☆☆ Aug 17, 2025

Awful. No shuttle busses to parking! Waited and waited and waited. Decided to take a taxi to the parking lot but the taxi driver would only take cash! Then called an Uber who drove us to our parked car. Unbelievable bad airport service. ONT -- if you want to be a "real" airport and compete with LAX then operate shuttles to parking lot!

★☆☆☆☆ Jan 25, 2025

Been flying this airport for years and this is the worst I've ever seen it. The parking is a joke. If you park across from the terminal, the parking lot is always full, yet the machine still issues you a ticket and you have to pay when you leave even though you spend 30 min. looking for a parking space that doesn't exist. Then, when you're forced to park in a further lot, the bus service is atrocious. Waiting 20-30 min. even though I just saw 3 busses following each other towards the rental cars. Not sure if the busses are attempting to save gas by slipstreaming, but whatever the reason, they're pathetic. With all of the advertising this airport does, one would think that they would put some of that money into infrastructure.

Then when you return to ONT, after a long flight, and all you want to do is get home, you have to wait in a long line of people (for 20-30 min.) to catch the bus back to your car. The busses are so infrequent that everybody crams in. If you're lucky enough to get a seat, be prepared to have somebody's butt in your face because people stand up and down the aisle.

Once at your terminal, everything is great from the airlines, TSA, through the restaurants and gift shop. Everybody is super friendly. Unfortunately, I think I may have flown my last flight out of ONT because, the aggravation of the busses and parking is not worth it to me. I'll take a few extra minutes and fly out of SNA.

*Reviews from Yelp

SHORT TERM SOLUTIONS

3. **Improve wayfinding** through digital or board signage towards parking lots

- numbers or letter codes in the parking lots

★ ★ ★ ★ ★ Jan 3, 2024

Their Parking Lot 6 doesn't have number/letter codes posted, so finding your car is unnecessarily difficult.

Choose Arrow

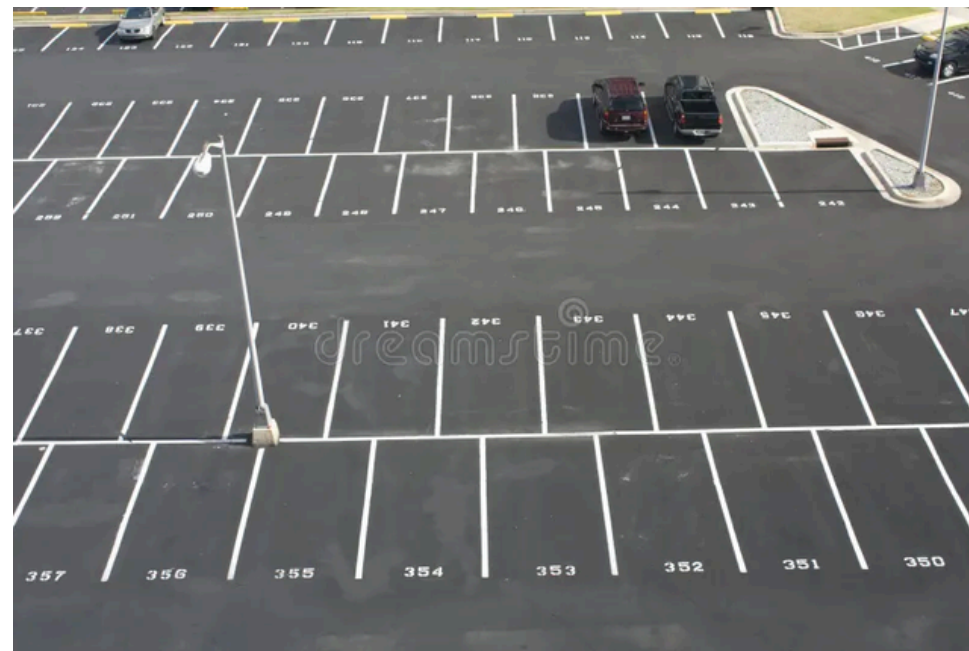

Parking (with Right/Left Arrow Options)

★★★★★ 4+ reviews

Size: 18"x24" to 24"x30"

From **\$56.16**

[Shop Now](#)

4. **Live pricing boards** (with the help of forecasting based on entries and exits of cars)

- Average cost is around \$500-\$5000
- Maintenance cost: \$100 - \$500

*Review from Yelp

*Pricing depends on the vendor and features

LONG TERM SOLUTION

1. Mobile App Platform & Optimizing the Website

- **Integrate all services** for a seamless Customer experience
- **Targeted marketing & coupons**
 - moving towards personalized pricing models
- **Personalized accounts** (license plate, payments, preferences)
- **Live shuttle & parking** updates
- **Loyalty points & customer retention program**
- **Full journey support** – pre-arrival to departure

LONG TERM SOLUTION

2. Parking Lot Transformation and New Services

- **Separate** premium and general parking
- **Install** space sensors and **reduce** parking search time
- **Designate** autonomous self-parking Lots & curbside pick up
- **Car wash & maintenance** (Oil Change, Mechanical works)
- **Host community events** during off-peak hour (car shows, drive-in movie)
- **Install License Plate Reader** at curbside pick up for TNCs

LONG TERM SOLUTION

3. Electric Vehicle Charging Stations

- **Partner with EV charging providers** (Tesla, Electrify America)
- **Rent out** spaces at **underutilized lots** for charging
- **Tap into** growing EV market & **attract** EV customer
- **Provide in-house** electricity infrastructure from non-utilize spaces
 - Fuel Cells
 - Natural Gas Microturbines (CHP)
 - Battery Energy Storage (BESS)

ROADMAP & CONCLUSION

Next 3 Months

- **Launch** Parking Subscription Plan
- **Install** Pricing Board per parking
- **Integrate GPS** Tracker for Live Shuttle Update

Next 3-6 Months

- **Separate Premium & General** Parking into Distinct Lots
- **Deploy** space/aisle sensors parking lots
- **Install** license plate readers at TNC/curb areas
- **Plan and hire intern** for App Development

ROADMAP & CONCLUSION

Next 6-12 Months

- **Test community events** in off-peak windows & lots
- **Develop** the App & **Update** the website
- **Deploy** car maintenance services
- **Partner with EV** Charging Stations Provider

Next 12-24 Months

- **Deploy the App & Launch** Customer Loyalty Program
- **Install** EV Charging Stations & **Evaluate** energy options
- **Plan & Designate** Lot for Autonomous Self-Driving Cars
